A Not For Profit Organization

The President Speaks...

Picture of our tutoring center

Hello and greetings to all our donors and volunteers. I want to personally thank all of you for your dedicated support and hard work.

The students resumed in-person classes, but we are not allowed to visit them, as yet. Neo Networks will remain active, tutor students, and support after-school activities on an as-needed basis.

Jason Frederick, President/CEO

FREQUENTLY ASKED QUESTIONS

(1) What does Neo Networks provide?

Jason: Neo Networks is a 501 (C) 3 nonprofit organization that provides services to students of all demographic categories that gives them the opportunity to improve their knowledge in several subjects

(2) When was Neo Network established and who has the company worked with?

Jason: Neo Networks was established in January 2006. In the last fifteen years, we have worked with several after school programs in the metropolitan area (Future Foundation, Job Corps, DeKalb Workforce, Senior Centers, and etc.) which included a multicultural group of diverse students from the inner city and refugees from African Countries. We also created mentoring groups, provided homework help, taught computer literacy, and provided food and nutrition classes. We provided scholarships to several students to go to Georgia Tech, Clayton State University and University of Georgia.

(3) What type of classes does Neo Networks offer?

Jason: Currently we are focusing on high school classes and test preparation for high schools students. The classes are CCGPS Algebra for 9th grade students, Analytical Geometry for 10th grade students, Math 3 for 11 grade students, Math 4 for 12 grade students, SAT prep, ACT prep, and ASVAB prep. We plan to revisit particular areas that need more attention and provide a flexible schedule to accommodate the needs of our students.

(4) When are the classes held?

Jason: This year, we will be focusing mostly on online classes because this will be a lot easier on the students and their parents. Most of the parents work late and transportation is a big problem in getting them to the office.

(5) Which schools are Neo Networks currently focusing on?

Jason: We are currently focusing on high schools and colleges in DeKalb area. We are open to other students who are interested in being tutored within the metro area.

ACCOMPLISHMENTS

Neo Networks, due to Covid, had limited interactions and abilities to engage with students throughout 2022 and 2023.

Below are some of the events that Neo Networks was able to interact with students and staff.

October Fun at the Center.
